

Schlieren, 17.11.2021

CDR-Life is a young and innovative biotech company based in Schlieren where we develop novel immunotherapies against cancer. A key part of this process is driven by the Discovery Group that designs, produces, and optimizes new antibodies in a variety of formats for the development of promising new drug candidates.

To expand our Discovery Group, we are looking for a highly motivated and qualified,

Technical Scientist Small Scale Production (100%)

Production of antibody fragments to discover new first-in-class immuno-oncology drugs

You will play an important role in the production of antibodies and antibody-derived molecules in mammalian cell lines and collaborate with colleagues to deliver first-in-class biologics. In addition, you will help to drive innovative approaches for drug discovery using novel antibody and protein engineering technologies. We are looking for a highly motivated and collaborative individual with a passion for drug discovery research, who enjoys working in a fast-paced and highly dynamic working environment.

Responsibilities:

- Perform transient transfection in mammalian cell cultures.
- Execute various purification methods using state of the art Aekta systems.
- Perform basic analytical methods such as SDS PAGE and SE-HPLC.
- Support/perform production of animal trial material with low endotoxin levels.
- Plan and execute plasmid cloning and DNA purification activities.
- Ensure best practices of research, data management, and archiving.
- Proactively prepare and/or organize required equipment, consumables, and reagents.

Your Profile:

- Apprenticeship, BS, MSc. or equivalent in biology, biochemistry or a related discipline.
- Demonstrated expertise in protein purification is essential.
- Experience in mammalian cell culture techniques is essential.
- Experience in basic analytical methods such as SE-HPLC and SDS PAGE.
- Experience in basic molecular biology techniques.
- Experience in endotoxin free protein production would be a plus.
- Ability to work independently in a team environment.
- Positive and proactive attitude.

Interested? Please send your documents to thomas.schleier@cdr-life.com. We look forward to receiving your application.
