

CDR-Life is a young and innovative biotech company based in Schlieren, Zurich where we develop novel immunotherapies against cancer. It is a dynamic mission-driven company with a highly collaborative approach. To ensure the optimal operations of our R&D activities, we are looking for a

Lab assistant (80-100%)

Supporting our daily lab activities crucial for our success

In this role, you will perform a variety of technical and administrative tasks to support Research and Development activities at CDR-Life. You will provide key services to enable efficient operations and ensure laboratory work continuity. The role requires a service- and solution-oriented mindset and a wish to conduct routine work in a reliable manner.

Key Responsibilities

- Support routine laboratory maintenance such as glassware cleaning and autoclaving
- Prepare standard solutions (e.g., buffers, media, etc.) according to established methods and SOPs
- Organize shipments of materials and samples
- Receive parcels and deliveries
- Help to maintain inventories and facility installations and keep track of standard chemicals and consumables
- Keep equipment in a clean and serviceable condition and ensure safe removal of waste
- Support basic laboratory work

Your Profile

- Experienced in a lab environment.
- Proven ability to work independently, as well as across functions.
- Goal-oriented, hands-on mentality, conscientious, efficient, flexible and pro-active attitude
- Good English language skills (a good command of German is a plus)
- General understanding of the principles of biotechnological research and development is a plus.
